

June 13, 2016

To our valued and respected Customers:

We are pleased to announce that effective June 1, 2016 Protonics Cleaning Solutions is merging with BBS Systems.

This is a very exciting event for both companies, for our employees and our customers. Our greatest assets have always been our people, and by joining forces we have just made a huge increase in the quality of that asset.

We are forging a new company with enhanced experience and expertise. Our merger will create a more comprehensive infrastructure with faster response times and a broader range of product offerings. It will also produce an expanded base of highly qualified service technicians that translates into better service at a preferred price for our clients.

This is a merger of two highly compatible firms. We hold similar values and philosophies on doing business: providing excellent service for the customer, an emphasis on honesty and integrity, and the importance of bringing a positive attitude to work.

We will continue to use both brands in the market and you can rely on the same personal working relationships that you have had in the past. You will still be dealing with the same people, and you can depend on the same quality of work.

Please join us as we look forward to an exciting and prosperous future for our employees, our project partners and our customers.

Sincerely,

Kirby Clarkson
Protonics Cleaning Solutions
President

Sincerely,

Greg Bamford
BBS Systems Ltd.
President
